# KERALA

Kerala is God's own country and home to some of the most tropical landscapes India has to offer. The Malabar Coast is situated at the southern most tip of South Western India and boasts some of the most beautiful, untouched coastline in the country.

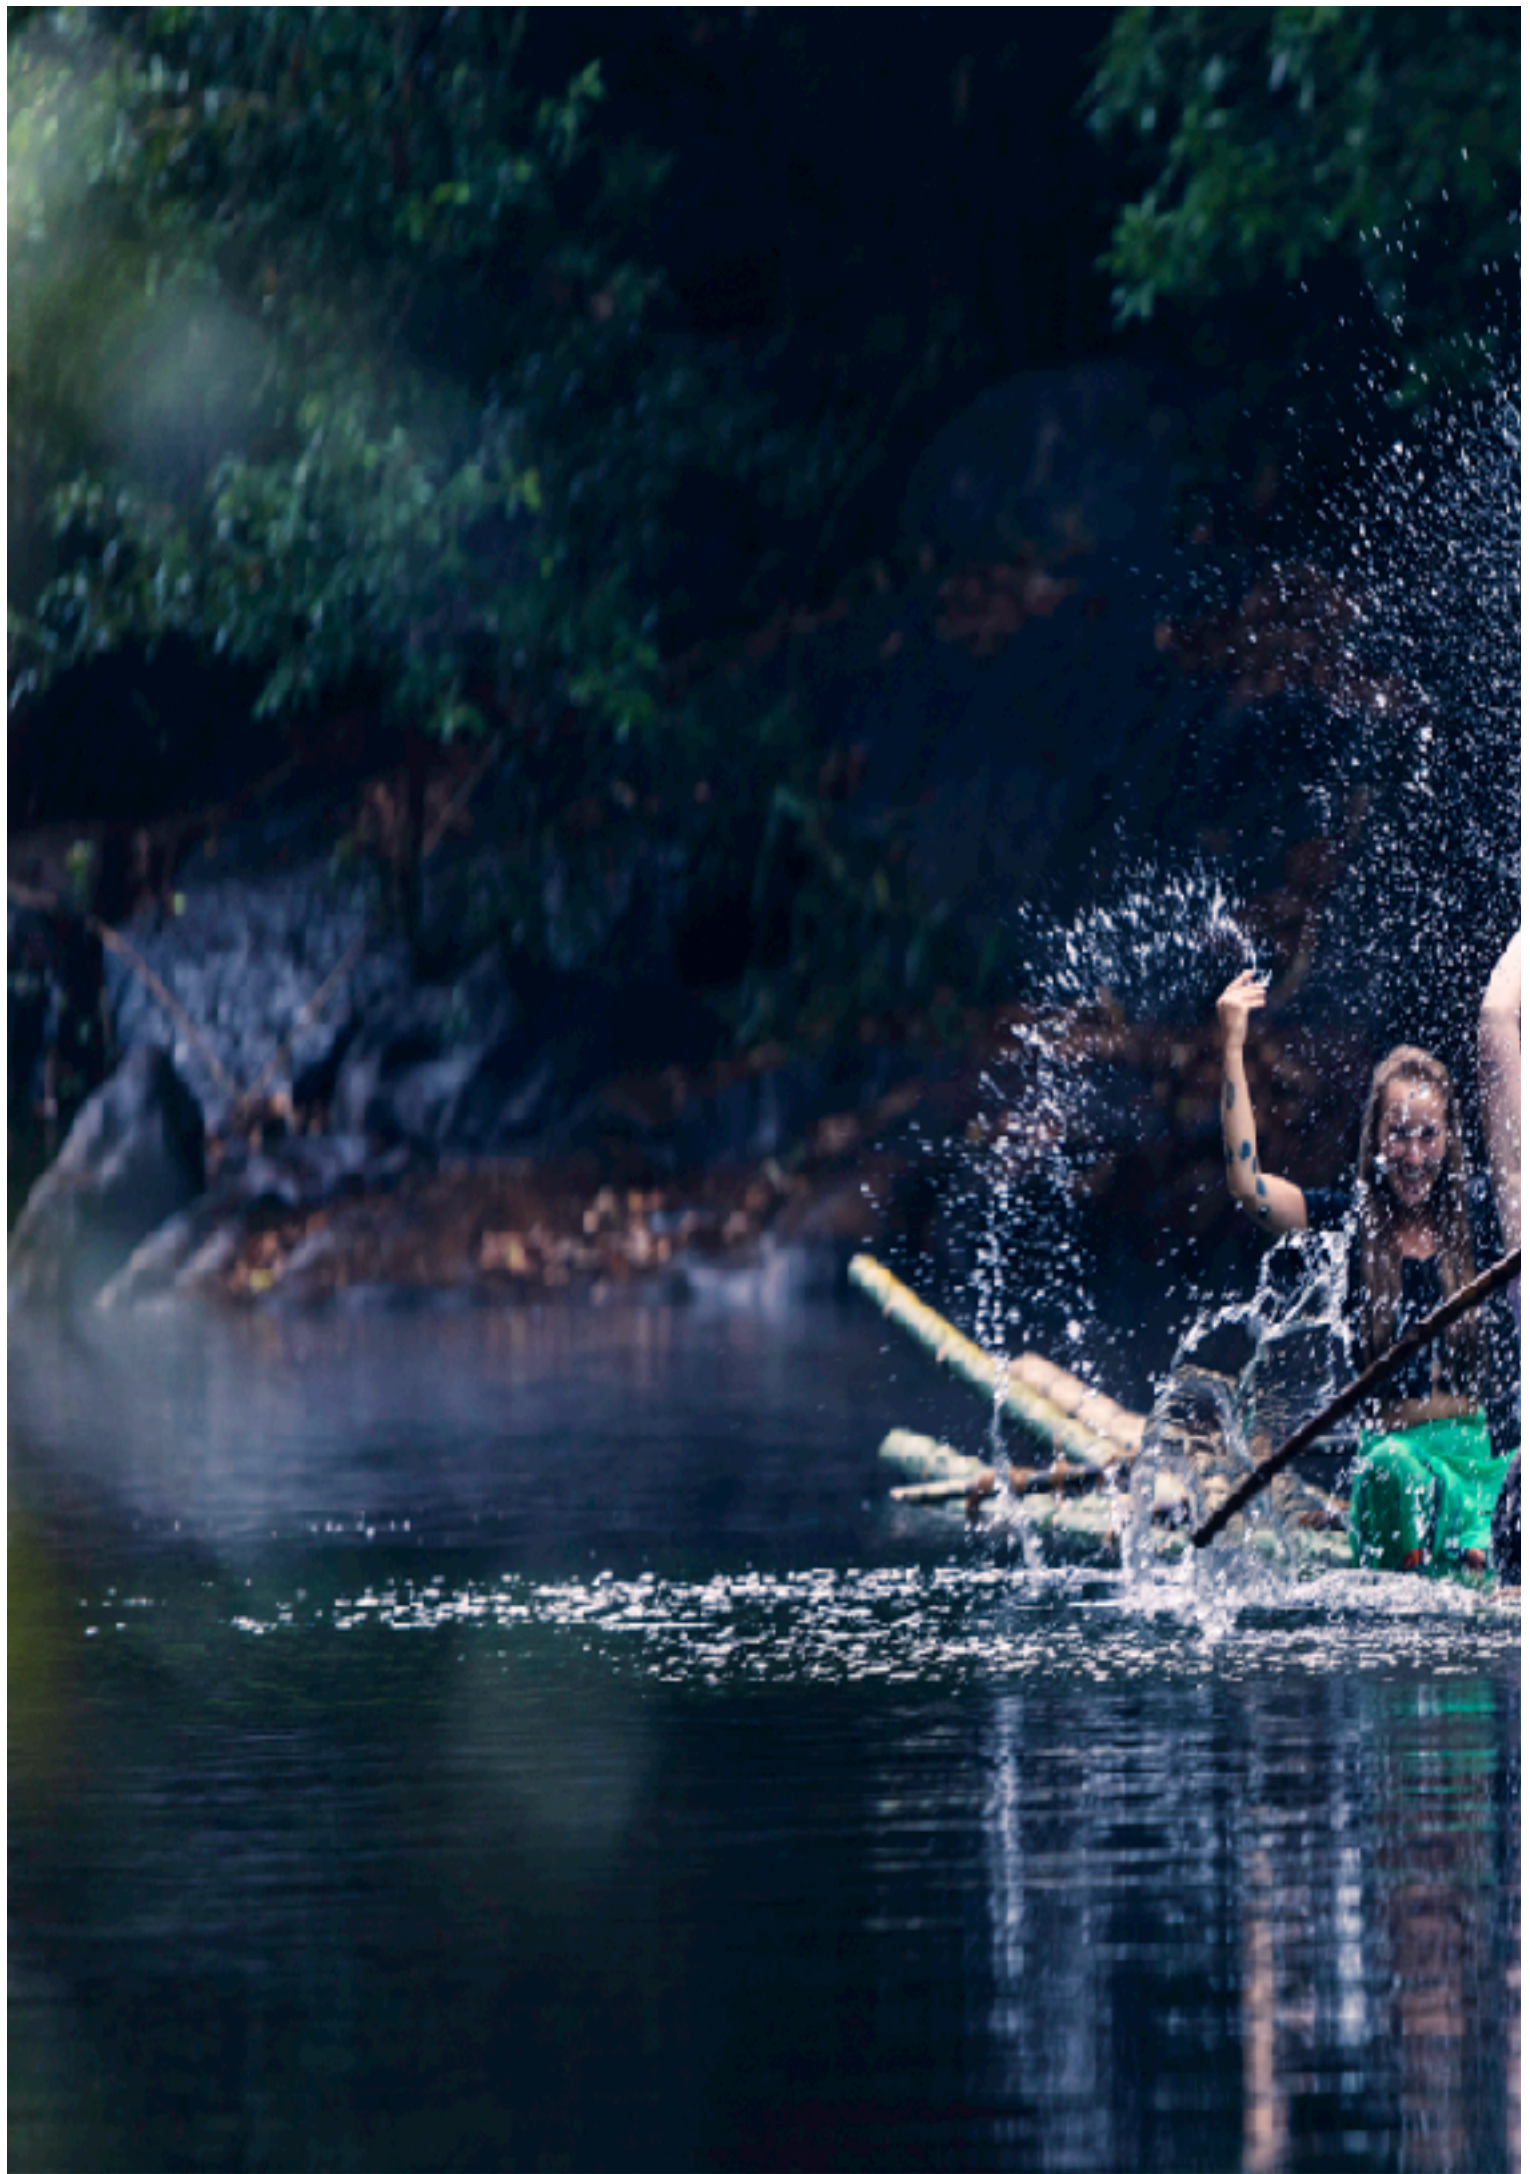

## IT ALL STARTS WITH NAMASKKARAM

Close your eyes and picture palm-fringed golden beaches and rolling emerald hills. See yourself floating along the Backwaters, passing lush jungle, rice terraces, half-lost temples and colonial outposts: welcome Kerala – India's chill-out state.

Listed as one of the top 50 places to visit by National Geographic, this southwestern state is India at its most idyllic – where the frenetic non-stop animation of the subcontinent ebbs away slowly, to nearly a standstill.

Nicknamed 'God's Own Country' by the proud locals, Kerala's outstanding natural beauty has been whispered about around the globe for centuries. The story goes that passing sailors would be drawn its shores by wafts of exotic spices drifting out to sea. To this day, Kerala has exceptional biodiversity, with thriving marine life in the oceans, teeming wildlife in the Western Ghats and the perfect conditions for rice cultivation, mango and coconut trees.

The legendary Kerala backwaters remain Kerala's crown jewels. Over forty rivers and canals form the backwaters: snaking and crisscrossing lush tropical landscapes, occasionally meeting to form deep azure lagoons – scene that will bring out the landscape painter in anyone!

## Oberoi MV Vrinda

Soak up beautiful scenery and absorb local sights as you meander through the tranquil waterways of 'God's own country' on board this elegant vessel, cruising the picturesque canals and lakes.

The gentle lapping of the water and balmy breezes make this a relaxing and unforgettable experience. This modern river cruiser has just eight cabins, all of which are located on the lower deck with windows overlooking the water, have kingsize beds and butler service.

There's a restaurant which serves international, Indian and Keralan specialities. There's also bar where non-alcoholic drinks are served.

## Taj Hotels, Kerala

Taj, World's Strongest Hotel Brand\*, is an iconic hospitality brand from the Indian Hotels Company Limited. The brand continues to be one of the most revered and loved hospitality brands with a legacy of over 116 years of impeccable service and genuine warmth.

Embodying the spirit of "Tajness", authentic original palaces, landmark hotels, idyllic resorts and natural safari lodges interpret the tradition of hospitality in a refreshingly modern way to create unique experiences and lifelong memories.

- Taj Malabar Resort & Spa, Cochin
- Taj Bekal Resort & Spa, Bekal
- Taj Green Cove Resort & Spa, Kovalam

## Talayar Valley Bungalow, Munnar

Located 18km from Munnar, this serene plantation offers four beautiful, spacious suites and views of the mountains, waterfalls and, of course, the rolling fields of green.

The highlight is the tea workshop, in which you can learn how to cut, wither, ferment, curl, dry and tear tea leaves, and then put those leaves in your own tea.

## Parisons Plantation Experiences, Wayanad

Spread across no less than 4,025 acres in God's Own Country, Parisons offers two beautifully furnished bungalows, four bedrooms Cherakara (pictured) & the six-bedroom Talapoya.

The first has a wraparound verandah that offers spectacular forest and mountain vistas, while the second offers pool views. Outdoor activities include mountain cycling and walks around the plantation or up the hills (including a dip in the stream), while indoors, you can play board games or table tennis, pamper yourself with a steam bath or at the ayurveda spa.

## Banasura Hill Resort, Wayanad

One of the most popular spots is the roof-top pool and café, both of which have incredible views out over the harbour... there are few places we would rather retreat to following a day of city exploration.

# AYURVEDA

A comprehensive understanding of Ayurveda requires a detailed look at its long history, from its source to the various interpretations it has been subjected to, through the centuries.

The original verses of Ayurveda are said to be derived from the consciousness of Lord Brahma the Creator, and carefully internalized by his disciples. These were passed down among the Gods, until they eventually reached the three Great Sages - Dhanwantari (in his Divodasa avatar), Bharadwaja, and Kashyapa - who setup different schools of treatment and thought on Earth. In the course of time, Ayurveda branched out into three categories, namely Shalya Chikitsa - Surgery, Kaya Chikitsa - General Medicine, and Kaumarabhritya - Paediatrics.

These had a huge influence on the way diseases and ailments were approached and treated, as the Sages sought this knowledge in times of great plague and pestilence. The third important phase of early Ayurvedic history is marked by the composition of the first medical literature on the subject that was invaluable in disseminating Ayurvedic philosophies and treatments across the world.

# CUISINE

Spices have always played an integral part of Kerala's history. Our food is an example of the very same and we have offerings for people from all over the world. Be it famous international restaurant chains or local eateries, we have everything a foodie could ask for prepared with that special Kerala taste to it. The cuisine here caters to vegetarians and non-vegetarians alike. Let the flavours of our past and our future take you on a delightful journey.

# MONSOON

Kerala does not have incessant rains that stop all activity. It rains for a few hours with sunny interludes. Occasionally the rains might stretch on for a few days but sunshine is never far away. These golden interludes provide an equilibrium to life's natural flow.

Kerala has mainly two rainy seasons. The Southwest Monsoon that arrives in the month of June is called Edavappathy, as it comes in the middle of the month of Edavam on the Malayalam Calendar.

As nature recoups with the rains, it is rejuvenation time for humans too. According to Ayurveda, Monsoon is the best season for rejuvenation therapies. During the Monsoon season, the atmosphere remains dust-free and cool, opening the pores of the body to the maximum, making it most receptive to herbal oils and therapy.

# WILDLIFE

There are a number of popular wildlife sanctuaries in Kerala housing exotic and rare species of flora and fauna. Nestled in the elaborate forest of the majestic Western Ghats or Sahyadri Ranges in Kerala are fourteen wildlife sanctuaries and two tiger reserves. Kerala also has six national parks containing protected and endangered species like the Indian Sloth-Bear, Lion-Tailed Macaque, Indian Bison, Bengal Tiger, Nilgiri Tahr etc.
